

Actions and local/regional strikes

Important message

Pharmacy employees take action

Pharmacy assistants and pharmacy employees are taking action for a better national collective labor agreement and fairer wages. This is an action by the labor unions FNV and CNV.

What do these actions involve?

During the on-time actions, pharmacy employees work strictly according to the collective labor agreement rules, with strict working hours and breaks. In the event of local and regional strikes, pharmacy employees can interrupt their work for a shorter or longer period.

What does this mean to you?

Pharmacy care will continue, but will be organized differently than you are used to. The safe use of your medication remains our top priority. You may be temporarily referred to another pharmacy. We ask for your understanding.

You can then visit:

This pharmacy is open from Monday to Friday

from to PM
